University Of Toronto
2015-2019
Major in Computer Science ,
Minor in History
CGPA: 3.00

Nafees Rawji

Software Developer

EXPERIENCE

TD Bank **Summer 2017**
Android Developer

- Worked in an **Agile** environment with daily scrum meetings and code reviews before every commit
- Worked as the sole Android Developer on TD My Credit Score section of the TD Canada App which will allow users to obtain their credit score within the TD app.
- Completed the project on schedule and with few bugs/issues during QA testing
- Used a variety of tools to facilitate development including **Jira, Jenkins, Git**

LIVE Competition **2017-Present**
IT Solutions Executive

- Created an on-line portal in **Node.js, React.js and SCSS** end users to upload/download files, communicate with the live team and interact with a simulated business environment
- Updated LIVE's public website to better suit 2017 design standards

Cofax Business Systems **Summer 2016**
Full Stack Engineer

- Overhauled server infrastructure with a modern implementation in **Node.js** using the **Express.js** framework
- Developed front-end interface using **Pug (Jade)** and **JQuery** to interact with the Node.js server and the **SQLite** database

SELECTED WORKS

LIVE Competition Website (live-competition.org):

- The public facing website shown to potential delegates and sponsors for LIVE Competition
- Implemented simple easy to navigate design while keeping page sizes small to ensure quick loading
- Coded in **JavaScript (JQuery), HTML5** and **CSS3**

Grade Tracker (<https://tinyurl.com/y88g66j8>):

- An ongoing project which allows students to keep track of their grades in a unified location
- Provides end user with visual data of their courses and other ,metrics to track their preformance
- Coded in **Java** using **Firebase** in conjunction with the **Facebook Developer SDK** for a backend
- Used tools such as **FB Infer** and **Android Lint** to ensure code was structurally sound and performant
- Is currently available on the Google Play Store
